3:29.1	1988
3:29.42a	1997

NOTES ON ALL-TIME AND CLASS LISTS:

- athletes are listed only once on the ALL-TIME and CLASS lists, even if they have numerous marks that would qualify
- a = automatic timing
- c = converted from a hand time to an auto time (hand times are converted by adding .24 [100m, 200m, 110mh] or .14 [300mh, 400m] to get an auto time)
- cy = hand time converted from yards (Oregon began running meters in 1978)
 - in the sprints and hurdles a conversion factor is used, then .24 is added for 100m, 110m, 200m; .14 is added for 300m, 400m
 - in the distance races a conversion factor is used from yards to meters, but there is no conversion to auto timing
- e = en route
- all conversions follow Track & Field News Big Green Book protocol
